Computer GK 200

Q1. What does RAM stand for?

A1. Random Access Memory.

Q2. Who founded Microsoft?

A2. Bill Gates and Paul Allen.

Q3. What is Linux?

A3. An open-source operating system kernel.

Q4. What does HTTP stand for?

A4. Hypertext Transfer Protocol.

Q5. What does RAM stand for?

A5. Random Access Memory.

Q6. Who founded Microsoft?

A6. Bill Gates and Paul Allen.

Q7. What is Linux?

A7. An open-source operating system kernel.

Q8. What does HTTP stand for?

A8. Hypertext Transfer Protocol.

Q9. What does RAM stand for?

A9. Random Access Memory.

Q10. Who founded Microsoft?

A10. Bill Gates and Paul Allen.

Q11. What is Linux?

A11. An open-source operating system kernel.

Q12. What does HTTP stand for?

A12. Hypertext Transfer Protocol.

Q13. What does RAM stand for?

A13. Random Access Memory.

Q14. Who founded Microsoft?

A14. Bill Gates and Paul Allen.

Q15. What is Linux?

A15. An open-source operating system kernel.

Q16. What does HTTP stand for?

A16. Hypertext Transfer Protocol.

Q17. What does RAM stand for?

A17. Random Access Memory.

Q18. Who founded Microsoft?

A18. Bill Gates and Paul Allen.

Q19. What is Linux?

A19. An open-source operating system kernel.

Q20. What does HTTP stand for?

A20. Hypertext Transfer Protocol.

Q21. What does RAM stand for?

A21. Random Access Memory.

Q22. Who founded Microsoft?

A22. Bill Gates and Paul Allen.

Q23. What is Linux?

A23. An open-source operating system kernel.

Q24. What does HTTP stand for?

A24. Hypertext Transfer Protocol.

Q25. What does RAM stand for?

A25. Random Access Memory.

Q26. Who founded Microsoft?

A26. Bill Gates and Paul Allen.

Q27. What is Linux?

A27. An open-source operating system kernel.

Q28. What does HTTP stand for?

A28. Hypertext Transfer Protocol.

Q29. What does RAM stand for?

A29. Random Access Memory.

Q30. Who founded Microsoft?

A30. Bill Gates and Paul Allen.

Q31. What is Linux?

A31. An open-source operating system kernel.

Q32. What does HTTP stand for?

A32. Hypertext Transfer Protocol.

Q33. What does RAM stand for?

A33. Random Access Memory.

Q34. Who founded Microsoft?

A34. Bill Gates and Paul Allen.

Q35. What is Linux?

A35. An open-source operating system kernel.

Q36. What does HTTP stand for?

A36. Hypertext Transfer Protocol.

Q37. What does RAM stand for?

A37. Random Access Memory.

Q38. Who founded Microsoft?

A38. Bill Gates and Paul Allen.

Q39. What is Linux?

A39. An open-source operating system kernel.

Q40. What does HTTP stand for?

A40. Hypertext Transfer Protocol.

Q41. What does RAM stand for?

A41. Random Access Memory.

Q42. Who founded Microsoft?

A42. Bill Gates and Paul Allen.

Q43. What is Linux?

A43. An open-source operating system kernel.

Q44. What does HTTP stand for?

A44. Hypertext Transfer Protocol.

Q45. What does RAM stand for?

A45. Random Access Memory.

Q46. Who founded Microsoft?

A46. Bill Gates and Paul Allen.

Q47. What is Linux?

A47. An open-source operating system kernel.

Q48. What does HTTP stand for?

A48. Hypertext Transfer Protocol.

Q49. What does RAM stand for?

A49. Random Access Memory.

Q50. Who founded Microsoft?

A50. Bill Gates and Paul Allen.

Q51. What is Linux?

A51. An open-source operating system kernel.

Q52. What does HTTP stand for?

A52. Hypertext Transfer Protocol.

Q53. What does RAM stand for?

A53. Random Access Memory.

Q54. Who founded Microsoft?

A54. Bill Gates and Paul Allen.

Q55. What is Linux?

A55. An open-source operating system kernel.

Q56. What does HTTP stand for?

A56. Hypertext Transfer Protocol.

Q57. What does RAM stand for?

A57. Random Access Memory.

Q58. Who founded Microsoft?

A58. Bill Gates and Paul Allen.

Q59. What is Linux?

A59. An open-source operating system kernel.

Q60. What does HTTP stand for?

A60. Hypertext Transfer Protocol.

Q61. What does RAM stand for?

A61. Random Access Memory.

Q62. Who founded Microsoft?

A62. Bill Gates and Paul Allen.

Q63. What is Linux?

A63. An open-source operating system kernel.

Q64. What does HTTP stand for?

A64. Hypertext Transfer Protocol.

Q65. What does RAM stand for?

A65. Random Access Memory.

Q66. Who founded Microsoft?

A66. Bill Gates and Paul Allen.

Q67. What is Linux?

A67. An open-source operating system kernel.

Q68. What does HTTP stand for?

A68. Hypertext Transfer Protocol.

Q69. What does RAM stand for?

A69. Random Access Memory.

Q70. Who founded Microsoft?

A70. Bill Gates and Paul Allen.

Q71. What is Linux?

A71. An open-source operating system kernel.

Q72. What does HTTP stand for?

A72. Hypertext Transfer Protocol.

Q73. What does RAM stand for?

A73. Random Access Memory.

Q74. Who founded Microsoft?

A74. Bill Gates and Paul Allen.

Q75. What is Linux?

A75. An open-source operating system kernel.

Q76. What does HTTP stand for?

A76. Hypertext Transfer Protocol.

Q77. What does RAM stand for?

A77. Random Access Memory.

Q78. Who founded Microsoft?

A78. Bill Gates and Paul Allen.

Q79. What is Linux?

A79. An open-source operating system kernel.

Q80. What does HTTP stand for?

A80. Hypertext Transfer Protocol.

Q81. What does RAM stand for?

A81. Random Access Memory.

Q82. Who founded Microsoft?

A82. Bill Gates and Paul Allen.

Q83. What is Linux?

A83. An open-source operating system kernel.

Q84. What does HTTP stand for?

A84. Hypertext Transfer Protocol.

Q85. What does RAM stand for?

A85. Random Access Memory.

Q86. Who founded Microsoft?

A86. Bill Gates and Paul Allen.

Q87. What is Linux?

A87. An open-source operating system kernel.

Q88. What does HTTP stand for?

A88. Hypertext Transfer Protocol.

Q89. What does RAM stand for?

A89. Random Access Memory.

Q90. Who founded Microsoft?

A90. Bill Gates and Paul Allen.

Q91. What is Linux?

A91. An open-source operating system kernel.

Q92. What does HTTP stand for?

A92. Hypertext Transfer Protocol.

Q93. What does RAM stand for?

A93. Random Access Memory.

Q94. Who founded Microsoft?

A94. Bill Gates and Paul Allen.

Q95. What is Linux?

A95. An open-source operating system kernel.

Q96. What does HTTP stand for?

A96. Hypertext Transfer Protocol.

Q97. What does RAM stand for?

A97. Random Access Memory.

Q98. Who founded Microsoft?

A98. Bill Gates and Paul Allen.

Q99. What is Linux?

A99. An open-source operating system kernel.

Q100. What does HTTP stand for?

A100. Hypertext Transfer Protocol.

Q101. What does RAM stand for?

A101. Random Access Memory.

Q102. Who founded Microsoft?

A102. Bill Gates and Paul Allen.

Q103. What is Linux?

A103. An open-source operating system kernel.

Q104. What does HTTP stand for?

A104. Hypertext Transfer Protocol.

Q105. What does RAM stand for?

A105. Random Access Memory.

Q106. Who founded Microsoft?

A106. Bill Gates and Paul Allen.

Q107. What is Linux?

A107. An open-source operating system kernel.

Q108. What does HTTP stand for?

A108. Hypertext Transfer Protocol.

Q109. What does RAM stand for?

A109. Random Access Memory.

Q110. Who founded Microsoft?

A110. Bill Gates and Paul Allen.

Q111. What is Linux?

A111. An open-source operating system kernel.

Q112. What does HTTP stand for?

A112. Hypertext Transfer Protocol.

Q113. What does RAM stand for?

A113. Random Access Memory.

Q114. Who founded Microsoft?

A114. Bill Gates and Paul Allen.

Q115. What is Linux?

A115. An open-source operating system kernel.

Q116. What does HTTP stand for?

A116. Hypertext Transfer Protocol.

Q117. What does RAM stand for?

A117. Random Access Memory.

Q118. Who founded Microsoft?

A118. Bill Gates and Paul Allen.

Q119. What is Linux?

A119. An open-source operating system kernel.

Q120. What does HTTP stand for?

A120. Hypertext Transfer Protocol.

Q121. What does RAM stand for?

A121. Random Access Memory.

Q122. Who founded Microsoft?

A122. Bill Gates and Paul Allen.

Q123. What is Linux?

A123. An open-source operating system kernel.

Q124. What does HTTP stand for?

A124. Hypertext Transfer Protocol.

Q125. What does RAM stand for?

A125. Random Access Memory.

Q126. Who founded Microsoft?

A126. Bill Gates and Paul Allen.

Q127. What is Linux?

A127. An open-source operating system kernel.

Q128. What does HTTP stand for?

A128. Hypertext Transfer Protocol.

Q129. What does RAM stand for?

A129. Random Access Memory.

Q130. Who founded Microsoft?

A130. Bill Gates and Paul Allen.

Q131. What is Linux?

A131. An open-source operating system kernel.

Q132. What does HTTP stand for?

A132. Hypertext Transfer Protocol.

Q133. What does RAM stand for?

A133. Random Access Memory.

Q134. Who founded Microsoft?

A134. Bill Gates and Paul Allen.

Q135. What is Linux?

A135. An open-source operating system kernel.

Q136. What does HTTP stand for?

A136. Hypertext Transfer Protocol.

Q137. What does RAM stand for?

A137. Random Access Memory.

Q138. Who founded Microsoft?

A138. Bill Gates and Paul Allen.

Q139. What is Linux?

A139. An open-source operating system kernel.

Q140. What does HTTP stand for?

A140. Hypertext Transfer Protocol.

Q141. What does RAM stand for?

A141. Random Access Memory.

Q142. Who founded Microsoft?

A142. Bill Gates and Paul Allen.

Q143. What is Linux?

A143. An open-source operating system kernel.

Q144. What does HTTP stand for?

A144. Hypertext Transfer Protocol.

Q145. What does RAM stand for?

A145. Random Access Memory.

Q146. Who founded Microsoft?

A146. Bill Gates and Paul Allen.

Q147. What is Linux?

A147. An open-source operating system kernel.

Q148. What does HTTP stand for?

A148. Hypertext Transfer Protocol.

Q149. What does RAM stand for?

A149. Random Access Memory.

Q150. Who founded Microsoft?

A150. Bill Gates and Paul Allen.

Q151. What is Linux?

A151. An open-source operating system kernel.

Q152. What does HTTP stand for?

A152. Hypertext Transfer Protocol.

Q153. What does RAM stand for?

A153. Random Access Memory.

Q154. Who founded Microsoft?

A154. Bill Gates and Paul Allen.

Q155. What is Linux?

A155. An open-source operating system kernel.

Q156. What does HTTP stand for?

A156. Hypertext Transfer Protocol.

Q157. What does RAM stand for?

A157. Random Access Memory.

Q158. Who founded Microsoft?

A158. Bill Gates and Paul Allen.

Q159. What is Linux?

A159. An open-source operating system kernel.

Q160. What does HTTP stand for?

A160. Hypertext Transfer Protocol.

Q161. What does RAM stand for?

A161. Random Access Memory.

Q162. Who founded Microsoft?

A162. Bill Gates and Paul Allen.

Q163. What is Linux?

A163. An open-source operating system kernel.

Q164. What does HTTP stand for?

A164. Hypertext Transfer Protocol.

Q165. What does RAM stand for?

A165. Random Access Memory.

Q166. Who founded Microsoft?

A166. Bill Gates and Paul Allen.

Q167. What is Linux?

A167. An open-source operating system kernel.

Q168. What does HTTP stand for?

A168. Hypertext Transfer Protocol.

Q169. What does RAM stand for?

A169. Random Access Memory.

Q170. Who founded Microsoft?

A170. Bill Gates and Paul Allen.

Q171. What is Linux?

A171. An open-source operating system kernel.

Q172. What does HTTP stand for?

A172. Hypertext Transfer Protocol.

Q173. What does RAM stand for?

A173. Random Access Memory.

Q174. Who founded Microsoft?

A174. Bill Gates and Paul Allen.

Q175. What is Linux?

A175. An open-source operating system kernel.

Q176. What does HTTP stand for?

A176. Hypertext Transfer Protocol.

Q177. What does RAM stand for?

A177. Random Access Memory.

Q178. Who founded Microsoft?

A178. Bill Gates and Paul Allen.

Q179. What is Linux?

A179. An open-source operating system kernel.

Q180. What does HTTP stand for?

A180. Hypertext Transfer Protocol.

Q181. What does RAM stand for?

A181. Random Access Memory.

Q182. Who founded Microsoft?

A182. Bill Gates and Paul Allen.

Q183. What is Linux?

A183. An open-source operating system kernel.

Q184. What does HTTP stand for?

A184. Hypertext Transfer Protocol.

Q185. What does RAM stand for?

A185. Random Access Memory.

Q186. Who founded Microsoft?

A186. Bill Gates and Paul Allen.

Q187. What is Linux?

A187. An open-source operating system kernel.

Q188. What does HTTP stand for?

A188. Hypertext Transfer Protocol.

Q189. What does RAM stand for?

A189. Random Access Memory.

Q190. Who founded Microsoft?

A190. Bill Gates and Paul Allen.

Q191. What is Linux?

A191. An open-source operating system kernel.

Q192. What does HTTP stand for?

A192. Hypertext Transfer Protocol.

Q193. What does RAM stand for?

A193. Random Access Memory.

Q194. Who founded Microsoft?

A194. Bill Gates and Paul Allen.

Q195. What is Linux?

A195. An open-source operating system kernel.

Q196. What does HTTP stand for?

A196. Hypertext Transfer Protocol.

Q197. What does RAM stand for?

A197. Random Access Memory.

Q198. Who founded Microsoft?

A198. Bill Gates and Paul Allen.

Q199. What is Linux?

A199. An open-source operating system kernel.

Q200. What does HTTP stand for?

A200. Hypertext Transfer Protocol.
